## THE ZOMBIE

Here it is! Finally after all these years, the Zombie is coming to Mango's. Not only to zombify you, but also to take you on an unforgettable journey! We begin our travels in Cuba, with "El Ron de Cuba" Havana Club Especial, which brings some fruity complexion to our blend. Next up, we arrive at the oldest rum distillery in the world, located in Barbados! Mount Gay Eclipse brings some vanilla, banana and slightly burnt notes to our blend. Last but certainly not least we take the boat to Guyana, at the Demerara river to be precise, for the El Dorado 12 Years. With its full body, rich flavors of fruit and spices, it certainly brings a lot to the table. Now that our blend is complete, let's talk fruit, with pineapple, passion fruit, hibiscus and a mix of red berries we could have rested but no! We add a touch of grapefruit and mint to complete it. Don the Beachcomber (The creator of the Zombie in 1934) would for sure be delighted to taste our own twist on this legendary cocktail.

But don't forget, we advise you to drink a maximum of two, unless you don't mind turning into a Zombie!

Enjoy!

# A RUM JOURNEY AT MANGO'S BEACHBAR

*In the heart of Zandvoort, nestled along the golden shores, Mango's Beachbar stood as a beacon of vibrant energy and tropical allure. With its palm-fringed surroundings and the rhythmic melody of waves, it was the perfect setting for an extraordinary rum tasting event.*

At the center of the bar, a stand showcased an array of rum bottles from around the world, each bearing a unique story and flavor profile. From the smooth and velvety textures of aged Caribbean rums to the fiery kick of spiced varieties, there was something to tantalize every palate.

Seated around the table, guests embarked on a journey guided by Mango's resident rum expert, a charismatic connoisseur with a passion for the spirit. With each pour, he shared tales of the distilleries, the craftsmanship behind each bottle, and the rich history of rum-making that stretched back centuries.

As the night wore on, the atmosphere grew livelier, fueled by laughter, music, and the shared experience of discovery. Each new rum brought with it a sense of adventure, transporting guests to distant shores and tropical paradises.

In that moment, Mango's Beachbar became more than just a venue; it was a gateway to a world of flavor and culture, where every sip told a story and every dish was a celebration of life's simple pleasures. And as the night drew to a close, the echoes of laughter and the warmth of shared memories lingered long into the starlit night, a testament to the magic of rum and the

## HOW TO TASTE RUM IN 5 STEPS

#### Step 1.) Appearance

Begin by observing the color and clarity of the rum. Hold the glass up to the light and note any hues of amber, gold, or mahogany. Clarity can indicate filtration or aging processes.

#### Step 2.) Aroma

Gently swirl the rum in the glass to release its bouquet of aromas. Bring the glass to your nose and inhale deeply, taking note of the various scents. Look for hints of fruit, spice, oak, caramel, or floral notes.

#### Step 3.) Taste

Take a small sip of the rum and allow it to coat your palate. Pay attention to the flavors that unfold, noting any sweetness, acidity, bitterness, or spice. Consider the texture and mouthfeel—is it smooth and velvety or bold and robust?

#### Step 4.) Finish

Swallow the rum and observe the lingering flavors and sensations on your palate. Is there a long, smooth finish, or does it leave behind a spicy or oaky aftertaste?

#### Step 5.) Enjoyment

Finally, reflect on your overall impression of the rum. Did you enjoy the flavors and complexity?
